I'll let you in on little known secrets that will help you understand why there's not just one "best" way to study for school success...*it all depends on your child's personality.*

89 of the Fortune 100 use personality type in their businesses. We need to apply the same techniques to our kids and teachers so that they realize how FUN learning and working together can be.

### **About Me:**

I'm the Founder of Kidzmet.com, which has helped tens of thousands of parents, teachers, and kids understand how they are uniquely wired to learn best. My book, *A Parent's Playbook for Learning*, has topped Amazon Kindle bestseller lists in both the Education and Parenting categories and has won rave reviews not only from our members around the world, but from major award organizations like Parent Tested Parent Approved, Then National Parenting Center, and Academics' Choice. My books, articles, and website have been featured in many publications, radio shows, and television shows including:

At home, though, I savor being just "Mom" to a daughter and son who are as different as yin and yang.
